Your account balance is positive, which means that this invoice is already paid! You do not have to send us a payment.
As you have already paid in advance, please regard this invoice as a confirmation, not as a payment reminder.

If you, however, receive a separate payment reminder e-mail in the future or have already received one, we ask you to read it carefully. Such a payment reminder means that a new payment will be required soon.

Last but not least, we invite you to switch to automated payments using Credit Cards or PayPal. This way you do not need to remember to top up the account at the end of your billing cycle and there is no risk of suspension or data loss because of a delayed payment. You can turn on automated payments in your Customer Control Panel in the section "Payment Method".

It is your responsibility to examine whether you are liable to pay VAT or similar tax according to your national legislation.
